We, the undersigned more than 600 nonprofit and nonpartisan organizations, stand united in opposition to the House Homeland Security Committee's and Senator Josh Hawley's unfounded demands for information from hundreds of nonprofit organizations. These charities and organizations have done nothing but carry out their work including what is outlined in the federal grants some of them were awarded, and include religious organizations and groups working on advocacy and services for immigrants, workers, youth and a vast array of other organizations serving their communities.

These letters of inquiry target civic organizations that have provided services under valid federal contracts that were authorized and appropriated by Congress, filling a need the government cannot perform itself. No allegations of wrongdoing, or evidence, is provided for these extraordinary and burdensome inquiries. This effort appears to be an attempt to weaponize Congressional power and create the appearance of wrongdoing against those who the signers believe disagree with their political agenda. The process these lawmakers intend to drag these law abiding, community serving organizations through is the punishment.

As nonprofit and nonpartisan organizations, we work in communities across the country to feed the hungry; house those without shelter; protect our air and water, our rights to vote, worship, and organize; we fight for consumers, workers, and our children; we advocate for civil and human rights at home and abroad; we have made it safer to drive on our roads, easier to start a business, and healthier to live in our cities. We span the full ideological spectrum. And today, we stand together for our democracy and in solidarity with those nonprofit organizations unjustly targeted by these Congressional letters.

Let us be clear – this investigation is Congress weaponizing its powers to target and intimidate nonprofit organizations that are fulfilling the guidelines of federal grants simply because they disagree with the policy those grants advance. This unfounded inquiry is not about protecting Americans, rooting out waste and fraud, or defending the public interest. It is about using unchecked power to chill constitutionally protected activity, community activism, and voices those sending the letters may disagree with. That is un-American and flies in the face of the Constitution.

This specific attack on nonprofits is not happening in a vacuum. Rather, this attack exists in the context of a wholesale offensive against organizations and individuals the administration and its allies find objectionable. We are standing in solidarity with the organizations targeted in this unfounded investigation because nonprofits of all types, members of the clergy and religious groups, advocates, and community serving organizations should not be punished for their work – even if those in power find it threatening to their policy agenda. Our government is meant to serve the people, not those in office.

Efforts by Members of Congress to attack nonprofit groups they disagree with are reprehensible, dangerous, and a violation of fundamental American freedoms. Speaking out for the voiceless is, and has always been, our collective mission. As such, we stand with those organizations wrongly targeted, and with one another.

Sincerely,
100% Democracy: An Initiative for Universal Voting
